Science and Research

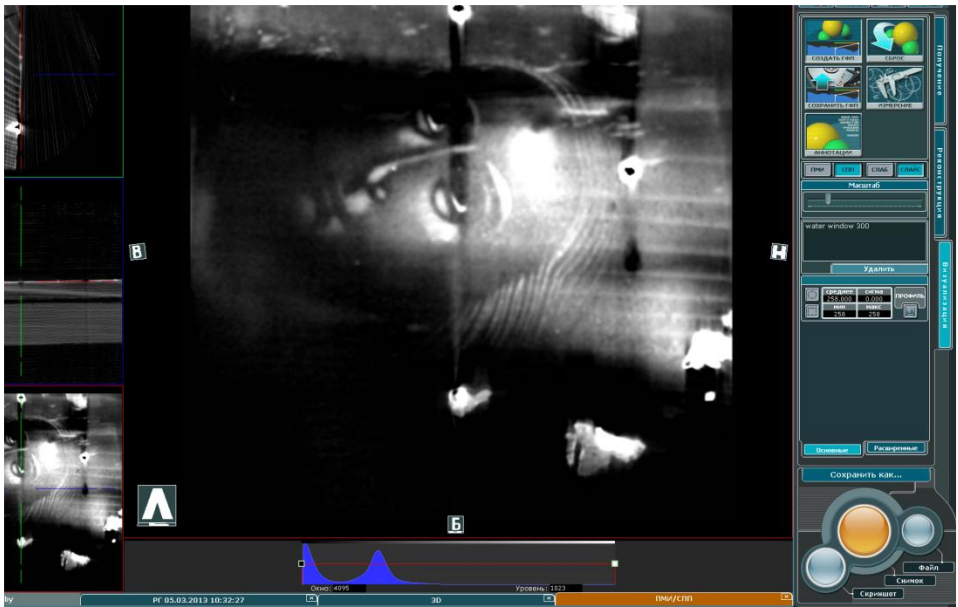

Since 2017, NovSU has the status of a “flagship” regional Higher Education Institution. Researchers of NovSU successfully work in the sphere of radio electronics, solid physics, nanoelectronics, assistive technology, mechatronics, archeology, restoration and education.

Technical Innovations

At present, the enterprises of NovSU TechnoPark are implementing more than 12 innovative projects.

The main ones are:

- Expert system "Cardiodiagnosis" - a reference book for practitioners and a simulator for students for diagnosing diseases of the cardiovascular system.
- Robotic mobile complex of X-ray examinations for automated preventive examinations (without the participation of a doctor).
- Vulnerability analysis and reverse debugging software used to search for source code vulnerabilities, reverse debugging by deterministic playback using the Qemu stimulator.
- Radiography of the scanned multilayer images of works of art.

International Students

The number of international students wishing to study at the University increases every year. Novgorod State University is extremely popular with the students coming from Asia, Africa, America, Middle East and Europe. There are about 500 students from more than 40 countries around the world studying at the University.

What they find here is an excellent quality of teaching, a wide choice of programs that meet all the latest requirements of the labor market, and last but not least, a friendly atmosphere.

The language of teaching at the university is Russian. The NovSU Preparatory department offers intensive Russian language training for one academic year before entering the university.

Study Costs and Expenses

- **Rent:** 1,300-1,600 rubles/month
- **Health Insurance:** 7,500 rubles
- **Tuition Fees:** 170,000-200,000 rubles
- **Meals:** 10,000-30,000 rubles/month
- **Bus Pass:** 2,000 rubles/month

Intensive Russian Language Programs

The NovSU Center of the Russian Language and Culture offers short-term and long-term courses of Russian (spoken and business Russian) for all those who wish to learn the language and culture of Russia. Dozens of students from Sweden, Finland, Norway, Germany, Denmark, France, Italy, Switzerland, America take these courses. Classes are held by highly qualified teachers of the NovSU Department of Russian as a Foreign Language, who are highly experienced in working with international students.

Study programs meet the requirements for the levels from A to C of the command of Russian (according to the Russian classification for TORFL).

NovSU International Projects

The most important international projects of 2017/18:

- Doule Degree in Pedagogical Education, Linguistics together with Hildesheim Foundation University (Germany)
- “Erasmus+” program (academic mobility)
- Russian-Belarus Project on Diversity Theory
- Russian-Belarus Project on Resonant Magnetoelectric Effect
- Russian-US project on Cross-Cultural Management (Appalachian State University)

Student Life

NovSU has 17 volunteer associations, which unite more than 300 people. NovSU Students participate in various volunteer activities: social patronizing, the restoration and care after military burial places, ecological protection, socio-psychological and legal aid to children and elderly persons.

Club of the Merry and Inventive (KVN) is rightfully considered to be one of the most interesting students' activities. It is not an exaggeration to say that students from all areas of the university are involved in KVN movement. NovSU teams are very different; they are funny and entertaining groups.

NovSU Students Union

NovSU Students Union invites active and ambitious students to join. It is a team of young, ambitious university students who are ready to provide leadership and act for the benefit of fellow students and their Alma Mater. It is the union of students for students.

Student's Labor Teams are a fine possibility for a student to get a job and to spend summer in the company of friends and group mates. In addition it is quite good to earn money.

University Healthy Way of Life

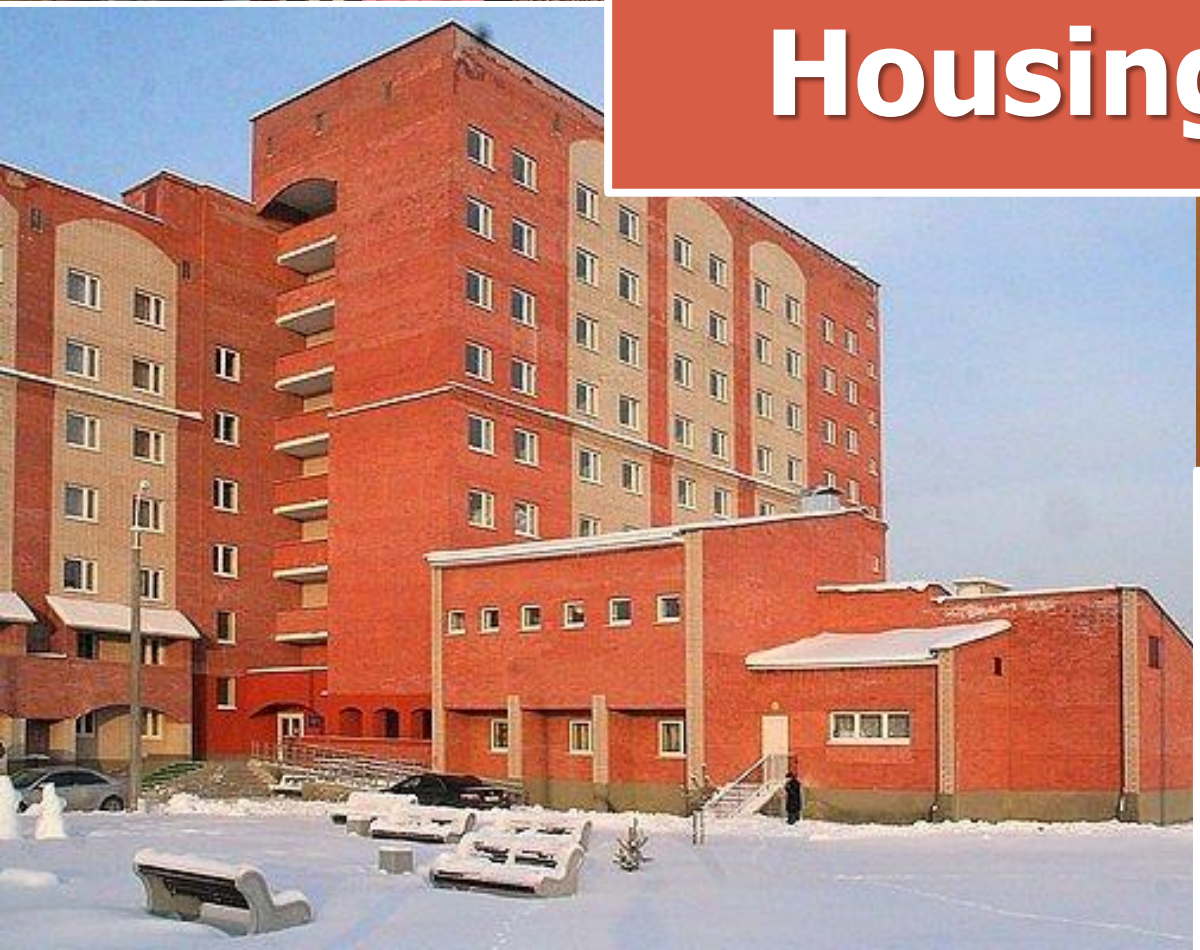

At NovSU everybody loves sports and fully understands the value of physical training. All necessary conditions for physical training and sports are created at the university. Eight newly equipped game gyms and a modern sport complex are opened for students, faculty and staff members.

Housing

DORMS

On campus living is a vital component of your overall university experience and here at Novgorod State University, we are proud to offer a convenient, affordable, and modern dormitories, which will become your home away from home.

FOOD

There is a student canteen at NovSU. Also students can buy a coffee and a snack from a “snack machine” in the main hall. Upon prior request, lunches can be provided in the University restaurant. In evenings, students can enjoy a variety of restaurants in the city center.

Food

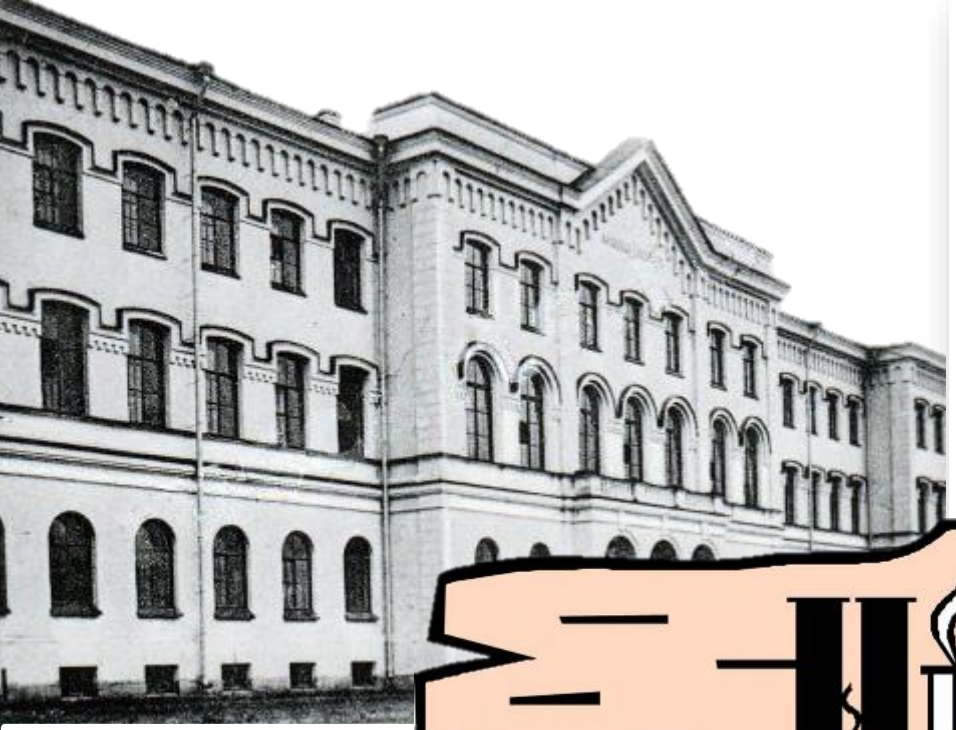

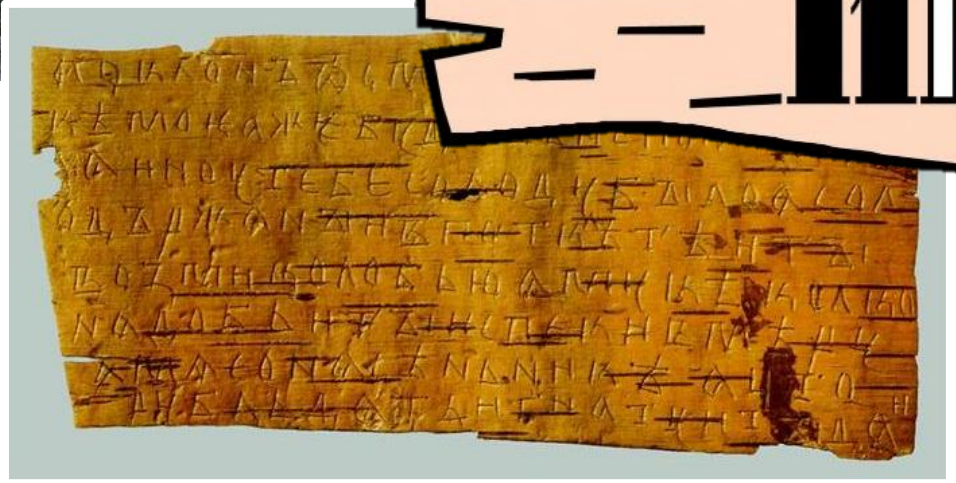

Veliky Novgorod

Veliky Novgorod is one of the oldest Russian cities, the cradle of Russian democracy, medieval center of trade and crafts. The first reference to Novgorod as a fortified settlement was found in the chronicle of 859.

Since the end of the Xth century, Novgorod became next to the most important center of Kievskaya Rus. The city was the earliest international trading center of Eastern Europe. Its location at the joint of the routes connecting the Baltic rim countries to the Mediterranea («From the Varangian to the Greek») and to the East via Povolzhye (Volga surroundings), provided for the intensive development of the trade, crafts, and culture.

Education in Veliky Novgorod

Novgorod is also known as the earliest center of education in Russia. In 1034, prince Yaroslav-the-Wise opened the famous library for keeping valuable manuscripts there, and founded the first public school in ancient Novgorod. The school created favorable conditions for the achievement of universal literacy of the local population, and not only in the city but in the countryside around it too. This is confirmed by numerous letters on birch-bark sent to the city from surrounding villages.

Novgorod State University adopted traditions of education and enlightenment, accumulated over 11 centuries, and ensures their development at a new level.

The logo of NovSU is written on a birch bark to symbolize the continuity of times and educational traditions. As for the letters, they are written in an old Slavonic style: the vowel is written above the consonant. Thus, the vowel “O” in NovSU finds itself above consonant “V”, and together they depict a candle as a symbol of enlightenment.
