

1) There's a General Medicine program in English for foreign students in Yaroslav-the-Wise Novgorod State University.

2) Also, foreign students can study General Medicine in Russian language.

☐ First the students enter preparatory course (1year) then enroll in a degree program in Russian language.

☐ There's also a preparatory course for General Medicine students in English Language.

3) If a student has a certificate of completion of Russian language course (1year), this student will enroll directly into a degree program (English language General Medicine program) in Novgorod State University in case this student successfully passes the Russian language test.

4) There's no separate faculty for international students in our university. The international students who study the General Medicine program in English attend classes in the same university departments and clinics as all the other General Medicine students who study in Russian.

The groups formed for English language General Medicine program remain the same for all six years of education.

5) In the course of the General Medicine English language program the clinical subjects are taught in English language of instructions or Russian.

6) The practices in hospital are held every year for international students of General Medicine program.
