

Gdansk University of Technology

GUT handed over the site for the construction of GUT Eco-innovation Center to the investment contractor selected through a tender. This modern and ecological science and research center will be ready by autumn 2022, the cost of construction is almost PLN 80 million. The Center will be one of the most important scientific units in Poland dealing with the development of pro-ecological solutions and environmental technologies.

University of Warmia and Mazury in Olsztyn

UWM continues construction of a new headquarters of the faculties of Law and Administration and Social Sciences. The works are planned to be finished in 2023. The construction of the new headquarters of WPiA and WNS is one of four great investments of UWM. Apart from that, the university is also building a new wing of the University Teaching Hospital. The cost of this investment exceeds PLN 52 million. There is also an outgoing polyclinic for large animals. Approximate cost is PLN 6 million. The Kortosphere, i.e. the Center for Popularization of Science and Innovation, is being equipped. Its cost is around PLN 33 million.

Immanuel Kant Baltic Federal University

New dorms and a swimming pool were opened in IKBFU. The new complex of five student residences consists of 275 one- and two-room apartments for 700 students. Thus, a full-fledged "student microdistrict" appeared in Kaliningrad. The new swimming pool appeared in the campus. It includes six swimming lanes with a length of 25 meters. Around 60 students can study there at one and the same time. The commissioning of these new infrastructure facilities is only a small part of a large-scale development programme of IKBFU. It is planned that by 2025 a full-fledged university campus will appear on the area of 29 hectares with new teaching and laboratory areas, dormitories, coworking spaces, etc.
